## ***IMsuite - Modular Suite System***

A Modular Suite for Optimised Site Management offers scalability, modularity and security. It is capable of adapting to rapid and as yet difficult to forecast volume growth.

IMsuite is a licensed product of  ***apw***

***IMsuite - Modular Suite System***

## IMsuite

### IMsuite - A Modular Suite for Optimized Site Management

The new IMsuite addresses the requirement for a totally modular system that enables the effective and secure segregation of customers and equipment, while retaining unlimited scalability. A range of three panel widths allows limitless combinations, and the use of standard components makes rapid expansion a simple process. IMsuite is available as standard with vented panels and a lock sliding door. Other locking options can be specified, catering to all levels of security requirements.

IMsuite is available in an attractive combination of charcoal (infill panels) and black finishes (pillars and top rails) finishes that ideally complement most contemporary enclosures. Additionally, IMsuite can be manufactured in your chosen corporate color. IMsuite has been designed to only require a small number of components, enabling our professional team to complete any installation very rapidly.

SJ is the recognized partner to the web hosting community, specializing in optimized enclosure solutions for data center facilities across the region. As a highly versatile solution for the effective housing of unlimited amount of IT equipment, IMsuite is the ideal addition to our range of innovative enclosures.
